Software Engineer | Full stack Developer

Karachi, Sindh, Pakistan

SUMMARY

I am a Software Engineer specializing in the MERN Stack (MongoDB, Express.js, React.js, and Node.js). With expertise in both front-end and back-end development, I engineer scalable web applications, focusing on RESTful API design, dynamic UI implementation, and database optimization.

Proficient in problem-solving and collaboration, I play a pivotal role in delivering high-quality software solutions within cross-functional teams. I am committed to staying updated with emerging technologies and industry trends, fostering innovation, and ensuring project success.

EDUCATION

Indus University, Karachi

Bachelor of Science in Software Engineering
2021-2025

- Coursework includes software development methodologies, data structures, algorithms, and web development.
- Emphasis on practical projects and hands-on experience to develop real-world skills.

SKILLS

Programming Language: Python, JavaScript, PHP
Typescript

Frontend: React.js, HTML5, CSS3, JavaScript (ES6+), and Responsive Design, Tailwind CSS

Backend: Node.js, Express.js, Mongo DB, RESTful API Design, Django

Database: MongoDB, SQL, MySQL

Tools: Git, npm, Postman, VS Code

CERTIFICATIONS

Mern Stack Training

Hazza Institute of Technology Onsite
Oct 1-10-2023 · Jun 1-10-2024

Back-End Training

Decotechs, Karachi onsite
Aug 26 -7-2024 to oct 15-10-2024

PROFESSIONAL EXPERIENCE

Intern Mern Stack Developer

maze digital | Dec Dec 16, 2024 - Feb 10, 2025

- Developed and maintained RESTful APIs, ensuring seamless integration with frontend systems.
- Built dynamic and responsive React.js components, enhancing user experience and interactivity.
- Collaborated with cross-functional teams to optimise data flow and system efficiency.
- Implemented secure authentication & authorisation using JWT and OAuth.
- Designed and optimised MongoDB database schemas for scalability and performance.
- Conducted testing, debugging, and performance optimisation to enhance backend reliability.
